

SL-F50W series

FIBER TYPE

HIGH POWER , RELIABLE, COST EFFECTIVE

- ***20, 30, 50 watt model***
- ***IPG Laser source***
- ***Spare Parts Available***
- ***Support MS Windows Fonts***

Maximum 50 Watt

SL-F50W (SL-F30W AND SL-F20W)series

Specification

Laser Type	Pulse
Power of laser	20/30/50w
Laser wavelength	1064nm
Repeating frequency	2-200KHZ
Beam quality	M<2
Marking range	30mm<30mm-300mm<300mm
Marking depth	<0.4mm
Marking line speed	7000 mm/s
Min.line width	0.01mm
Min.character	0.15mm
Repeatability accuracy	+/-0.002
Power supply	220V+/-10% / 50-60Hz
Power consumption	1KW
Weight	<55Kg
Cooling mode	Built-in wind cooling

Application

- Used to engraved metallic and non-metallic materials, for example, stainless steel, decorating parts for handsets, clocks, watches, moulds, ICs, handset buttons bitmap
